

Ex Vivo

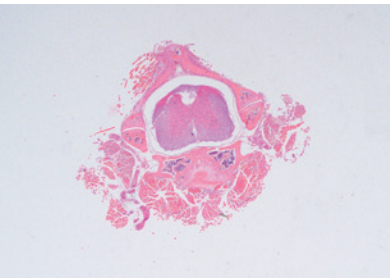

Tailor-made histology
and imaging analysis

Ex Vivo

HISTOLOGY AND IMAGING ANALYSIS

Our commitment :
High-level of flexibility
and responsiveness for
your histological and
imagery analysis

- **Histological and imagery services** as an endpoint for *in vivo* analysis
- **Ex-vivo analysis** of your own sample

HISTOLOGY : HIGH QUALITY EXPERTISE IN HARD AND SOFT TISSUES

SAMPLES PREPARATION

- Paraffin, Resin and Frozen samples

SECTIONINGS

SLIDE STAINING

- Special stains
- Immunohistochemistry

SLIDE ANALYSIS

- Histomorphometry (microscopy)
- Microscopy, confocal microscopy and fluorescent imaging
- Pathological scoring

IMAGERY SERVICES : OUTSTANDING EQUIPMENT FOR QUALITATIVE AND QUANTITATIVE ANALYSIS

- **DEXA** analysis (Bone Mineral Density)
 - **Radiographical** analysis
 - **Bioluminescence**
 - **MicroCT** analysis (Bone Microarchitecture Analysis)
-
